

TYPE OF CONTRACTOR	SCOPE OF WORK PERMITTED
ELECTRICAL CONTRACTOR	<p>"Electrical contractor" or "unlimited electrical contractor" means a person who conducts business in the electrical trade field and who has the experience, knowledge, and skill to install, repair, alter, add to, or design, in compliance with law, electrical wiring, fixtures, appliances, apparatus, raceways, conduit, or any part thereof, which generates, transmits, transforms, or utilizes electrical energy in any form, including the electrical installations and systems within plants and substations, all in compliance with applicable plans, specifications, codes, laws, and regulations. The term means any person, firm, or corporation that engages in the business of electrical contracting under an express or implied contract; or that undertakes, offers to undertake, purports to have the capacity to undertake, or submits a bid to engage in the business of electrical contracting; or that does itself or by or through others engage in the business of electrical contracting.</p>
REGISTERED ELECTRICAL CONTRACTOR	<p>"Registered electrical contractor" means an electrical contractor who has registered with the department pursuant to fulfilling the competency requirements in the jurisdiction for which the registration is issued. A registered electrical contractor may contract only in the jurisdiction for which his or her registration is issued</p>
CERTIFIED ELECTRICAL CONTRACTOR	<p>An electrical contractor who possesses a certificate of competency issued by the Department. A certified contractor may contract in any jurisdiction within the State of Florida without being required to meet local jurisdiction requirements.</p>
SPECIALTY CONTRACTOR	<p>A contractor whose scope of practice is limited to a specific segment of electrical or alarm system contracting, including, but not limited to, residential electrical contracting, maintenance of electrical fixtures, and fabrication, erection, installation, and maintenance of electrical advertising signs together with the interrelated parts and supports thereof. Categories of specialty contractor shall be established by board rule.</p>
SIGN SPECIALTY CONTRACTOR	<p>The Sign Specialty Electrical Contractor allows the structural fabrication including concrete foundation, erection, installation, alteration, repair, service and wiring of electrical signs and outline lighting. This certification does not include the provision of, or any electrical work beyond, the last disconnect mean or terminal points. A contractor certified under this section may provide the electrical entrance requirements for metering and main disconnect of remote billboards or signs which are independent of any structure or building and which require no more than 25 kilowatts at 250 volts maximum.</p>
UTILITY LINE	<p>The Utility Line Electrical Contractor is a utility contractor whose business includes all types of transmission electrical circuits, distribution electrical circuits, and substation construction done for investor owned electrical utilities, city municipal electrical utilities, and cooperatives under the rural electric authority between point of origin and point of delivery.</p>

TYPE OF CONTRACTOR	SCOPE OF WORK PERMITTED
<p>LIMITED ENERGY (FORMALLY LOW VOLTAGE)</p>	<p>The Limited Energy (Low Voltage) contractor can install, repair, fabricate, erect, alter, add to, or design, in compliance with law, electrical wiring, fixtures, appliances, thermostats, apparatus, raceways, conduit, and fiber optics (transmitting light over stranded glass) or any part thereof not to exceed 77 volts, when those items are for the purpose of transmitting data, proprietary video (satellite systems which aren't part of a community antenna television, cable television, or radio distribution system), radio frequency, central vacuum, or electric locks, data distribution, networks, home theater systems, surround sound systems, public address systems or telephone systems. This license is limited to electrical circuits and equipment governed by the applicable provisions of Articles 725 (Class 2 and 3 circuits only), 770, 800, 810, and 820 of the NEC 1984 edition or 47 CFR Part 68. This license does not include work performed by public utilities exempt under the terms of Section 489.503(5), F.S., or exempt due to the regulatory jurisdiction of the Florida Public Service Commission.</p>
<p>LIGHTING MAINTENANCE</p>	<p>The Lighting Maintenance Specialty Electrical Contractor is limited to the installation, repair, alteration, or replacement of lighting fixtures in or on buildings, signs, billboards, roadways, streets, parking lots, and other similar structures. The scope of the certification does not include the provision of, or work beyond, the last electrical supplying source, outlet, or disconnecting means.</p>
